Subject: Tower Standard Technical Group Call - September 22

Good Morning:

I see that we have a technical group discussion scheduled for this coming Thursday (September 22) at 8 AM. Here are some possible agenda topics:

- MIP/HPT results interpretation/presentation from Cascade
- Status update on additional MW installations by Bristol
- USGS groundwater/surface water study update
- Update on recent LIF work
- Initial remedial planning steps
- Schedule revisions

Also, since we had to cancel the August call, and that call was supposed to include the quarterly management briefing, I'm suggesting that we request our respective management folks to join us after our scheduled call this week. I think we have much to catch up on.

Please let me know your thoughts as soon as you can so that I can reserve a call-in line. Thanks.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
